## SP1675

2008-09 Honda Accord Coupe  
2.4 L 4cyl

SP1675P POLISHED  
SP1675BLK BLACK

+Gains of up to  
**+12 hp - +10 ft.lbs torque**

**SP1685**

+Gains of up to  
**+11 hp - +9 ft.lbs torque**

**SP1675**

**Features and Benefits:**

- MR Technology (Tunes intake to factory air/fuel ratios)
- Air Fusion (adjust short/long term fuel trim levels)
- Injen/AMSOIL Ea nano-fiber dry filter with inverted cone
- Calibrated mass air flow sensor housing
- Mandrel-bent aerospace aluminum alloy

**MR**  
TECHNOLOGY

(Patent # 7,359,795).

AT INJEN TECHNOLOGY, WE DIDN'T COPY THE STEP DOWN PROCESS WE INVENTED IT!

INJEN'S  
MR TECHNOLOGY  
STEP DOWN PROCESS

EQUIPPED WITH  
AIR FUSION

**HELP YOUR ACCORD REACH ITS FULL POTENTIAL! HOW DOES 12 H/P AND 10 FT./LBS OF TORQUE GRAB YOU, INTERESTED?**

Undoubtedly, the superior intakes on the market today: the all new SP1685 and SP1675. Injen's patented, MR step down process calibrates air/fuel ratios, while Air Fusion adjusts short term, long term fuel trim levels to factory spec's. Complementing this innovative technology, is the Injen/AMSOIL Ea nano-fiber No-Oil-required dry filter, the filter of the future! With all this advanced engineering going into an intake, why settle for less? Go with Injen Technology, The Intake tuners of today and tomorrow!

**Patents:**  
MEGARAM (MR), AIR FUSION AND INTAKE AIR HORNS - If it isn't Licensed and Certified by Injen Technology, you're buying a substandard knock-off. Trained and certified engineers will display the licensing logo of authenticity and will receive full support from Injen Technology. Look for the licensing logo whenever purchasing an intake displaying any of our patented processes.
